JUNE, 2020 K.C.R.C.I. GHANA Newsletter

After many months of planning and hard work, a container of 15 refurbished dialysis machines and parts, left Nashville, Tennessee, on November 14, 2019 on the way to Ghana Police Hospital in Accra, Ghana. A team led by Jeff Gilliam worked on the machines and packed them for shipping. Our U.S. team of Olive Gilliam and Jefferson Gilliam left Nashville on February 22, 2020 for Ghana and returned on February 28, 2020. Olive trained the nurses and Jeff trained technicians on the machines. Mr. Kwabena Addison-Amponsah, who was instrumental in this project, accompanied them.

A team from India, including Anil Kumar and Selvakumar, also traveled to Accra to assist with checking the machines and help with installation. It was a very successful trip. A big thank you goes to Dr. Marion Tetteh-Korbe, Medical Director of Ghana Police Hospital, Mr. Kwabena Addison-Amponsah, a native of Ghana, Mrs. Maame Tiwaa Addo-Danquah, Director General of the CID of Ghana Police Service, DSP/Mr. Patrick Nuamah and especially the Ghana Association of Middle Tennessee. We look forward to an ongoing relationship with them and to possibly expanding in Ghana, as well as India.

Please join us in our quest to provide much needed help in India, Ghana and other parts of the world. You may visit our website, kcrci.org and donate using Paypal, or mail a check to the above address.
